

# **Rules for our Beach Activity**

## **SWIMMING**

- Children under 12 years of age must be accompanied by an adult swimmer. Adult members and guests are responsible for the safety and behavior of children. We have no life guard service.
- Behavior on the raft should be sane. No pushing or shoving. Be kind to other swimmers.
- Please don't allow children to throw sand in any direction.

## **TOYS, BEACH CHAIRS & RUBBISH**

- All toys should be removed from the beach each day. Tubes, mattresses & floats of all description should be removed from the property before dark.
- All rubbish should be removed each time you visit the beach. Before you leave for the day please walk around and pick up stuff even if you didn't bring it. Everyone will thank you for this effort.
- Folding beach chairs should be returned to your home each time you bring them to the beach.

## **BOATS**

- Small boats may reside on the edges of our property. Boats may not touch the fence on either side. To control mosquitoes, all vessels must be stored in such a way that water will not pool on or under the craft.

## **DUCKS & OTHER BIRDS**

- Please do not feed the birds. It causes a massive problem with pollution of the water, beach, and float. The beach is checked every week for e-coli bacteria and geese can create high levels of e-coli. A high level of e-coli will result in beach closure.
- Please help keep our beach property clean. Birds often mess up our float. To keep the float clean a large bucket, cleaning materials and disinfectant are provided under the tree by the boats. If the float is dirty with manure please consider it closed for use. We have no hired raft or beach maintenance. All cleaning is done by our members.

## **NO SMOKING ALLOWED**
